Draw a diagonal line from corner to corner on the wrong side of the A squares. Sew an A square to both ends of the B rectangle along the diagonal line as shown. Make four left units and four right units.

Make 4 left units

Make 4 right units

Sew a left and right unit together as shown. Make 4.

Sew an A square and C square together as shown, make 8. Next, sew two A/C units together as shown. Make 4.

Using a D square, assemble block as shown. Trim your block to $12-1 / 2$ " $\times 12-1 / 2$ " or $6-1 / 2^{\prime \prime} \times$ 6-1/2".
